**Period for Reply**

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

## DETAILED ACTION

### *Election/Restrictions*

Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) drawn to compounds, compositions and methods of use wherein T, U, W and M are combinations of C and N.

Group II, claim(s) drawn to compounds, compositions and methods of use wherein T, U, W and M are combinations of C and O.

Group III, claim(s) drawn to compounds, compositions and methods of use wherein T, U, W and M are combinations of C and S.

Group IV, claim(s) drawn to compounds, compositions and methods of use wherein T, U, W and M are combinations of C, O and S.

Group V, claim(s) drawn to compounds, compositions and methods of use wherein T, U, W and M are combinations of C, O and N.

Group VI, claim(s) drawn to compounds, compositions and methods of use wherein T, U, W and M are combinations of C, S and N.

The inventions listed as Groups I-VI do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons:

MPEP 1850 D. states that in Markush type claims unity of invention is present only if the following criteria are fulfilled:

(A) all alternatives have a common property or activity, and

Art Unit: 1625

(B) a common structure is present, i.e., a SIGNIFICANT STRUCTURAL ELEMENT is shared by all the alternatives, or

(C) in cases where the common structure cannot be the unifying criteria, all the alternatives belong to a RECOGNIZED CLASS OF CHEMICAL COMPOUNDS in the art to which it pertains.

In the instant case, neither B or C is met because the core, C-C-N, is neither significant nor novel and the compounds fall into many classes such as thiophenes, furans, pyrroles, imidazoles, oxazoles, thiazoles, etc.

Applicant is advised that the reply to this requirement to be complete must include (i) an election of a species or invention to be examined even though the requirement be traversed (37 CFR 1.143) and (ii) identification of the claims encompassing the elected invention.

The election of an invention or species may be made with or without traverse. To reserve a right to petition, the election must be made with traverse. If the reply does not distinctly and specifically point out supposed errors in the restriction requirement, the election shall be treated as an election without traverse.

Should applicant traverse on the ground that the inventions or species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the inventions or species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C.103(a) of the other invention.

Art Unit: 1625

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Deborah C. Lambkin whose telephone number is 571-272-0698. The examiner can normally be reached on 9.00-5.30 M-F.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Thomas McKenzie can be reached on 571-272-0670. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
